The ~~inches~~ <sup>is</sup> a ~~blay~~ <sup>structure</sup> ~~in~~ <sup>at</sup> angles  
& rounded components. At least part of interior is  
open, brightly lit, w/ curious cob schemes. Frequently  
at present, it is the location sometimes, maybe  
frequently of a gathering of people. Structure seems to  
be a center for coordination & control of activities.  
Sometimes a "watch" is maintained during critical  
times, which monitors events, situations, trends, etc.  
in the environment being monitored, but also keeps  
tabs on groups or "operational elements" of the  
organization ~~occupying~~ <sup>as</sup> the structure.
